O R D E R:-

The total number of vacancies which arose upto 31.3.47 in the cadre of first class Health Officers in the Madras Public Health Service was 36. With reference to the orders in G.O.(Ps.)No.821 Public(Services) dated 4.11.47, the Government decided to allot 24 of these vacancies to war service candidates and the remaining 12 vacancies to civilian candidates and to discontinue the principle of reserving vacancies for war service candidates in respect of vacancies arising on or after 1.4.47. In pursuance of the above decision, all the 36 vacancies which arose prior to 1.4.47 have since been filled by the recruitment of the following four categories of candidates in consultation with the Madras Public Services Commission.

(i) Three probationers who have done war-service and who have been absorbed in reserved vacancies by relaxing the Madras Public Health (War Service Personnel) Recruitment Rules.

(ii) Twentyone war-service (outside) candidates.

(iii) Nine Probationers with no war-service but who have put long service and who have been absorbed in nine de-reserved vacancies.

(iv) Three permanent second class Health Officers appointed by transfer against three de-reserved vacancies.

2. Among the 36 vacancies, referred to 14 are permanent and the remaining 22 are temporary vacancies. The Government have now decided to fix the relative seniority of war service and civilian candidates appointed against the 36 vacancies referred to in para 1 above and to allot the permanent and temporary vacancies amongst them in the proportion (nent of 2:1 as shown below applying the principle followed in G.O.No.821 Public (Services) dated 15.3.47. The three probationers referred to in item (1) of para 1 above have been placed at the top of the list of war-service candidates as in these cases, the rules have been definitely relaxed and orders issued that they should be appointed in reserved vacancies in preference to outsiders with war service.
